Date	pН	Temp	Ammonia NH ₃ /NH ₄ +	Nitrite NO ₂ -	Nitrate NO ₃ -	Notes
Date	рп	тепір		NO ₂ -	NO ₃ -	Notes

Use thi	Water Additions Use this to keep track of total water consumption as well as source water filter changes					
Date	Water Volume Added	Notes				

Use thi	Water Additions Use this to keep track of total water consumption as well as source water filter changes					
Date	Water Volume Added	Notes				

Use	pH Adjusters and Nutrient Additions Use to record anything added to the system after cycling, calcium, potassium, iron, acid, etc					
Date	pH before/ 8 hrs after	Amount and Product Used	Notes			

Use	pH Adjusters and Nutrient Additions Use to record anything added to the system after cycling, calcium, potassium, iron, acid, etc					
Date	pH before & 8 hrs after	Amount and Product Used	Notes			

	Plant Pest and Diseases Use to record anything that affects plant health and how it is being treated					
Date	Pest/Disease	Amount and mode of treatment	Notes			

	Plant Pest and Diseases Use to record anything that affects plant health and how it is being treated					
Date	Pest/Disease	Amount and mode of treatment	Notes			

Use to re	Fish Stocking and Health Use to record anything that involves fish, including stocking new fish, fish health issues, fish weights, breeding behavior, mortality issues, harvesting activities					
Date	Number of Fish in/out	Reason for change	Notes			

Use to re	Fish Stocking and Health Use to record anything that involves fish, including stocking new fish, fish health issues, fish weights, breeding behavior, mortality issues, harvesting activities					
Date	Number of Fish in/out	Reason for change	Notes			

Use to	Fish Feeding Use to record anything that involves feeding the fish, feed volume, feed frequency, temperature, etc					
Date	Daily feed	Fish response	Notes			

Use to	Fish Feeding Use to record anything that involves feeding the fish, feed volume, feed frequency, temperature, etc					
Date	Daily feed	Fish response	Notes			

Maintenance and Outages Use to record preventative or reactive maintenance activities - cleaning, clogs, pump failures, power outages, aeration issues, leaks, hot or cold temperatures in air or water, heater issues, ventilation					
Date	Event/Cause	Action/Response	Notes
